SUMMARY

MERN Stack Developer with over 2 years of hands-on experience in designing, developing, and implementing web applications using modern technologies. Proficient in frontend development with HTML, CSS, JavaScript, React, and GSAP. Experienced in backend development with Node.js and Express.js, and adept in database management with MongoDB. Strong expertise in state management using Redux Toolkit and authentication mechanisms including Google OAuth and JWT. Committed to continuous learning in Generative AI and delivering innovative, efficient web solutions.

TECHNICAL SKILLS

- Frontend: React, Redux Toolkit, JavaScript (ES6+), GSAP, ScrollTrigger, Locomotive/Lenis, Tailwind CSS, Bootstrap, HTML5, CSS3
- Backend: Node.js, Express.js, RESTful APIs, WebSockets, WebRTC, Google OAuth, JWT, Passport.js
- Database & Storage: MongoDB, Mongoose, Compound Indexing
- Tools & Testing: Git, GitHub, Postman, Jest, Vite, Visual Studio Code, Linux, Windows OS
- Emerging Interests: Generative AI, RAG Architectures, AI Agents

EXPERIENCE & KEY PROJECTS

Full-Stack MERN Developer — Engineering & Applications *2022 – Present*

- Developed and maintained responsive web applications using the MERN stack (MongoDB, Express.js, React, Node.js).
- Implemented complex animations and scroll effects using GSAP, ScrollTrigger, and Locomotive Scroll to enhance UX.
- Utilized React and Redux Toolkit for efficient client state management and seamless user interactions.
- Designed and built secure RESTful APIs for multiple microservices and integrated them with frontend clients.
- Implemented authentication and authorization mechanisms using Google OAuth, JWT, and Passport.js.
- Developed real-time communication features using WebRTC and WebSockets for enhanced interactivity.
- Wrote unit and integration tests using Jest and Postman to ensure code quality and reliability.

Web Systems & Freelance Developer — Client Production Domains *2018 – 2023*

- Created and managed production WordPress websites and executed zero-downtime server migrations.
- Managed infrastructure and optimizations for active domains: gamingconsole.com, allindiaexamresult.com, healthynord.com, and jaideoclasses.in.
- Hardened server security, tuned MySQL database queries, and implemented caching layers.

EDUCATION & CERTIFICATIONS

- **Master of Computer Applications (MCA)** — AISECT University, Jharkhand — Completed
- **Bachelor of Computer Applications (BCA)** — Veer Kunwar Singh University (VKSU) — 1st Division
- **Intermediate (PCM)** — BSEB / Veer Kunwar Singh University — 1st Division
- **Secondary School (10th)** — Central Board of Secondary Education (CBSE) — 1st Division

KEY PROJECTS

- PulseCart (E-Commerce Platform): Full-stack MERN with Redux Toolkit, JWT auth, cart persistence & checkout.
- LinkPulse (URL Shortener & Analytics): Node.js/Express, MongoDB, redirect service, QR code, telemetry charts.
- EchoSphere (Real-Time Collab): React, Node.js, WebSockets, WebRTC P2P media calling, online presence.
- NeuroQuery (AI Semantic Search): Generative AI RAG search with vector embeddings and markdown Q&A.

Interests & Practice: Meditation, Continuous Learning in Generative AI, Open-Source exploration.
